SUBJECT INDEX

Alkali metal
preparation and intercalation into graphite of some alkali metal hydrides, 173
Alloys
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311
effect of alloying on hydride formation in the Pd–Re system, 430
hydriding and dehydriding characteristics of mechanically alloyed mixtures Mg–$x$wt.%Ni (x = 5, 10, 25 and 55), 71
hydriding properties of a mechanical alloy with composition Mg–25%Fe, 181
hydriding properties of mechanical alloys Mg–Ni, 89
H_2 storage by pure and Ca-substituted $LaMg_{12}$ alloys, 428
Mg mechanical alloys for H_2 storage, 25
use of V-based solid solution alloys in metal hydride heat pumps, 275
Aluminium
reaction kinetics of $LaNi_{4.79}Al_{0.21}$-hydride, 61
static, dynamic and cycling studies on H_2 in the intermetallics $LaNi_5$ and $LaNi_{4.77}Al_{0.22}$, 349

Boron
effect of H_2 absorption on the magnetic properties of $Nd_{15}Fe_{77}B_8$, 409
H_2 dependence of the intrinsic magnetic properties of $R_2Fe_{14}B$, 419

Calcium
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
H_2 storage by pure and Ca-substituted $LaMg_{12}$ alloys, 428

Capacity
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311
Cerium
structural characterization of RNi_2 ($R \equiv$ La, Ce) intermetallic compounds and their hydrides, 201
Chromium
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125
Composite materials
H_2 absorption properties of $FeTi_{1+x}$–rare earth oxide composite materials, 301
Copper
concentration dependence of H_2 mobility in CuTi amorphous hydrides, 145
Crystal–glass transitions
crystal–glass transition by H_2 absorption and structure of amorphous Zr–X hydrides, 210

Durability
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311

Electrodes
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311
Electromigration
investigation of the electromigration of T in Ta, 431

Germanium
H_2 sorption properties of $D8_8$-type systems III. The effect of Ge substitution in $Y_{s-a}Sc_aSi_3$ phases, 191

© Elsevier Sequoia/Printed in The Netherlands

Halides
hydrides of the double metal-layered monohalides: structural and bonding features of Zr_2Br_2H, ZrBrH and $YClH_z$ type phases, 209
Heat pumps
dynamics of H_2 transfer in a metal hydride heat pump, 225
thermodynamics of the hydride chemical heat pump: III. Consideration for multistage operation, 385
use of V-based solid solution alloys in metal hydride heat pumps, 275
Heat transfer
heat and mass transfer in metal hydride reaction beds: experimental and theoretical results, 235
Helium
properties of ^3T and ^3He in metals, 263
HUP
electrochemical hydriding of a metal with a solid protonic conductor electrolyte: the composite "$Ti_{1.1}Ni$"H_2/HUP electrode, 427
Hydrogen purification
H_2 purification with metal hydrides in a new kind of reactor, 329
Hydrogen storage
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
contribution of cathodic charging to H_2 storage in metal hydrides, 337
H_2 storage and isotopic H–D exchange in graphite–K intercalation compounds, 371
H_2 storage by pure and Ca-substituted $LaMg_{12}$ alloys, 428
investigation of the mechanical behaviour of H_2 storage metal beds on hydriding and dehydriding and several methods of preventing the damage of hydride containers caused by the expansion of H_2 storage metals, 399
investigation of the removal of H_2 from gas mixtures using misch metal-based H_2 storage metals, 321
Mg mechanical alloys for H_2 storage, 25

Industrial applications
properties of metal hydrides for use in industrial applications, 213

Intercalation
H_2 storage and isotopic H–D exchange in graphite–K intercalation compounds, 371
preparation and intercalation into graphite of some alkali metal hydrides, 173
Intermetallics
olefin hydrogenation over some $LaNi_{5-x}M_x$ intermetallic compounds, 425
static, dynamic and cycling studies on H_2 in the intermetallics $LaNi_5$ and $LaNi_{4.77}Al_{0.22}$, 349
structural characterization of RNi_2 (R ≡ La, Ce) intermetallic compounds and their hydrides, 201
surface phenomena in H_2 absorption kinetics of metals and intermetallic compounds, 1
Intrinsic magnetic properties
H_2 dependence of the intrinsic magnetic properties of $R_2Fe_{14}B$, 419
Iron
dynamic characteristics of the H_2 sorption process in $MmNi_{4.15}Fe_{0.85}H_x$ compacts, 51
effect of H_2 absorption on the magnetic properties of $Nd_{15}Fe_{77}B_8$, 409
hydriding properties of a mechanical alloy with composition Mg–25%Fe, 181
H_2 absorption properties of $FeTi_{1+x}$–rare earth oxide composite materials, 301
H_2 dependence of the intrinsic magnetic properties of $R_2Fe_{14}B$, 419
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125
Isotopic exchange
H_2 storage and isotopic H–D exchange in graphite–K intercalation compounds, 371

Lanthanum
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
hydriding and dehydriding characteristics of $LaNi_5$ mixed with silicone compounds, 365

H_2 storage by pure and Ca-substituted $LaMg_{12}$ alloys, 428
olefin hydrogenation over some $LaNi_{5-x}M_x$ intermetallic compounds, 425
reaction kinetics of $LaNi_{4.79}Al_{0.21}$-hydride, 61
room temperature oxidation of $LaNi_5$ and the reaction mechanisms of initial H_2 absorption of $LaNi_5$, 143
static, dynamic and cycling studies on H_2 in the intermetallics $LaNi_5$ and $LaNi_{4.77}Al_{0.22}$, 349
structural characterization of RNi_2 ($R \equiv La, Ce$) intermetallic compounds and their hydrides, 201
the effect of methane on the rate of H_2 absorption by $LaNi_5H_x$ in liquid suspension, 41
the kinetics of the absorption of H_2 by $LaNi_5H_x$ suspended in aqueous solutions, 81
thermal desorption spectra of H_2 from $LaNi_5$, 117
Liquid hydrogen
capture of liquid H_2 boil-off with metal hydride absorbers, 283

Magnesium
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
elements of hydride formation mechanisms in nearly spherical Mg powder particles, 133
hydriding and dehydriding characteristics of mechanically alloyed mixtures Mg–$x$wt.%Ni (x = 5, 10, 25 and 55), 71
hydriding properties of a mechanical alloy with composition Mg–25%Fe, 181
hydriding properties of mechanical alloys Mg–Ni, 89
H_2 storage by pure and Ca-substituted $LaMg_{12}$ alloys, 428
kinetic model of Mg hydriding, 99
kinetics and mechanism of the hydriding reaction of Mg activated by cycling, 143
Mg mechanical alloys for H_2 storage, 25
new pathway to Mg_2Ni and an Mg–Ni carbide, 163
study of the hydriding kinetics of Mg_2Ni, 109
Magnetic properties
effect of H_2 absorption on the magnetic properties of $Nd_{15}Fe_{77}B_8$, 409
H_2 dependence of the intrinsic magnetic properties of $R_2Fe_{14}B$, 419
Manganese
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125
Mass transfer
heat and mass transfer in metal hydride reaction beds: experimental and theoretical results, 235
Mechanical alloying
hydriding and dehydriding characteristics of mechanically alloyed mixtures Mg–$x$wt.%Ni (x = 5, 10, 25 and 55), 71
hydriding properties of a mechanical alloy with composition Mg–25%Fe, 181
hydriding properties of mechanical alloys Mg–Ni, 89
Methane
effect of methane on the rate of H_2 absorption by $LaNi_5H_x$ in liquid suspension, 41
Misch metal
dynamic characteristics of the H_2 sorption process in $MmNi_{4.15}Fe_{0.85}H_x$ compacts, 51
investigation of the removal of H_2 from gas mixtures using misch metal-based H_2 storage metals, 321

Neodymium
effect of H_2 absorption on the magnetic properties of $Nd_{15}Fe_{77}B_8$, 409
Nickel
Ca- and Ni-substituted La–Mg alloys for H_2 storage, 379
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311
dynamic characteristics of the H_2 sorption process in $MmNi_{4.15}Fe_{0.85}H_x$ compacts, 51
effect of methane on the rate of H_2 absorption by $LaNi_5H_x$ in liquid suspension, 41

electrochemical hydriding of a metal with a solid protonic conductor electrolyte: the composite "$Ti_{1.1}Ni$"H_2/HUP electrode, 427
hydriding and dehydriding characteristics of $LaNi_5$ mixed with silicone compounds, 365
hydriding and dehydriding characteristics of mechanically alloyed mixtures Mg–$x$wt.%Ni (x = 5, 10, 25 and 55), 71
hydriding properties of mechanical alloys Mg–Ni, 89
kinetics of the absorption of H_2 by $LaNi_5H_x$ suspended in aqueous solutions, 81
new pathway to Mg_2Ni and an Mg–Ni carbide, 163
olefin hydrogenation over some $LaNi_{5-x}M_x$ intermetallic compounds, 425
reaction kinetics of $LaNi_{4.79}Al_{0.21}$-hydride, 61
room temperature oxidation of $LaNi_5$ and the reaction mechanisms of initial H_2 absorption of $LaNi_5$, 143
static, dynamic and cycling studies on H_2 in the intermetallics $LaNi_5$ and $LaNi_{4.77}Al_{0.22}$, 349
structural characterization of RNi_2 (R ≡ La, Ce) intermetallic compounds and their hydrides, 201
study of the hydriding kinetics of Mg_2Ni, 109
thermal desorption spectra of H_2 from $LaNi_5$, 117

Nucleation
role of nucleation in some hydride formation kinetics, 13

Olefin hydrogenation
olefin hydrogenation over some $LaNi_{5-x}M_x$ intermetallic compounds, 425

Oxygen precoverage
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125

Paired metal hydrides
dynamic behaviour of paired metal hydrides, 428

Palladium
coexistence of H and C solutes in the Pd lattice, 157
effect of alloying on hydride formation in the Pd–Re system, 430

Passivation
model description of carbon monoxide passivation during metal hydriding, 429

Permanent magnets
potential of H_2 in permanent magnet production, 245

Potassium
H_2 storage and isotopic H–D exchange in graphite–K intercalation compounds, 371

Protium–deuterium exchange
H_2 storage and isotopic H–D exchange in graphite–K intercalation compounds, 371

Rare earths
H_2 dependence of the intrinsic magnetic properties of $R_2Fe_{14}B$, 419

Reaction beds
heat and mass transfer in metal hydride reaction beds: experimental and theoretical results, 235

Rhenium
effect of alloying on hydride formation in the Pd–Re system, 430

Rhodium
evidence for the role of a "hydridic" H on the selective hydrogenation of ethyl acetate to ethanol with the bimetallic system Rh–Sn supported on silica, 426

Sandwich films
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125

Scandium
H_2 sorption properties of $D8_8$-type systems III. The effect of Ge substitution in $Y_{8-a}Sc_aSi_3$ phases, 191

Selective hydrogenation
evidence for the role of a "hydridic" H on the selective hydrogenation of ethyl acetate to ethanol with the bimetallic system Rh–Sn supported on silica, 426

Silicon
H_2 sorption properties of $D8_8$-type systems III. The effect of Ge substitution in $Y_{8-a}Sc_aSi_3$ phases, 191

Silicones
hydriding and dehydriding characteristics of $LaNi_5$ mixed with silicone compounds, 365
Solid protonic conductor
electrochemical hydriding of a metal with a solid protonic conductor electrolyte: the composite "$Ti_{1.1}Ni$"H_2/HUP electrode, 427
Surface phenomena
surface phenomena in H_2 absorption kinetics of metals and intermetallic compounds, 1

Tantalum
investigation of the electromigration of T in Ta, 431
Thermal conductivity
effective thermal conductivity of a metal hydride bed augmented with a copper wire-net matrix, 426
Thermal desorption
thermal desorption spectra of H_2 from $LaNi_5$, 117
Tin
evidence for the role of a "hydridic" H on the selective hydrogenation of ethyl acetate to ethanol with the bimetallic system Rh–Sn supported on silica, 426
Titanium
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performance, 311
concentration dependence of H_2 mobility in CuTi amorphous hydrides, 145
electrochemical hydriding of a metal with a solid protonic conductor electrolyte: the composite "$Ti_{1.1}Ni$"H_2/HUP electrode, 427
H_2 absorption properties of $FeTi_{1+x}$–rare earth oxide composite materials, 301
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125
Tritium
investigation of the electromigration of T in Ta, 431
properties of ^3T and ^3He in metals, 263
swelling of selected metal tritides, 293

Vanadium
kinetics of H_2 absorption of Ti/metal (V, Cr, Mn, Fe, Ni) sandwich films with and without O_2 precoverage at 300 K, 125
use of V-based solid solution alloys in metal hydride heat pumps, 275

Yttrium
H_2 sorption properties of $D8_8$-type systems III. The effect of Ge substitution in $Y_{s-a}Sc_aSi_3$ phases, 191
hydrides of the double metal-layered monohalides: structural and bonding features of Zr_2Br_2H, ZrBrH and $YClH_z$ type phases, 209

Zirconium
capacities and durabilities of Ti–Zr–Ni alloy hydride electrodes and effects of electroless plating on their performances, 311
crystal–glass transition by H_2 absorption and structure of amorphous Zr–X hydrides, 210
hydrides of the double metal-layered monohalides: structural and bonding features of Zr_2Br_2H, ZrBrH and $YClH_z$ type phases, 209
